Matt, could you find a time on Dennis' calendar for me, Joelle Gore (NOAA), and Will Stelle to meet as per Dennis' note below?
Thanks,

Christine Psyk, Associate Director
EPA Region 10, OWW

Subject: Re: Latest meeting w Whitman & Governor

Joelle and all:

Will and I had a call with Richard Whitman and Dick Pedersen last Tuesday. I followed that with a meeting on Wednesday with Administrator McCarthy, Governor Brown, Richard Whitman and Dick Pedersen. The conversations went well with the Governor expressing her intention to work with us to address improvements in forest practices. There was some discussion of how discussions on agricultural issues might occur. All agreed that discussions on agricultural issues should be underway now with the intention of hearing how Oregon Department of Agriculture leadership and staff feel they are addressing comments and concerns with additional monitoring and documentation of what is being done and anticipated. On forestry issues there was a request for some patience on our part over the next two to three weeks while key legislative actions are finalized. There was also a strong indication that the State would initiate the first letter to us expressing their desire to work with us to resolve the outstanding forest practices issues. We would then follow with our letter with the gaps memo attached. Richard expressed interest in further discussions about woody debris and also wants to discuss recent changes to our language regarding meeting water quality standards. We should schedule a call between Will, me, Joelle and Christine to follow up.

Dennis McLerran
Regional Administrator
EPA Region 10
